

Auzred Xb Team 2015 Elite Young Aussie Red Sires

“BRED TO EXCEL UNDER AUSTRALIAN PASTURE BASE DAIRYING CONDITIONS”

Auzred Xb's Team 2015 offers 5 new Elite Young Aussie Red Sires. They are the highest genetic merit team of Progeny Test sires selected for an Aussie Red PT team to date.

These Elite young sires are selected from sound maternal lines with their dams featuring at the top of the Australian Red Dairy Breed ABV cow list for genetic merit.

All females in the maternal lines of each of these Elite young sires were thoroughly checked for any faults. All bull Dams are selected strongly on Genetic Merit, Udders, Temperament, Type, Fertility and Longevity, combined with very high production and components.

AXBJAMAR (ARBLippman x Peterslund x Skole x Hall 798)

NASIS: 05UUK01 Bull Id: AXBJAMAR
Sire: ARBLIPPMAN Dam: BLACKWOOD PARK 905

Jamar's Progeny test starting ABV is impressive @ BPI 189 /29% rel, HWI 145 /23% rel, TWI 174 /25% rel

- No.1 ABV Aussie Red cow in the August 2013 ADHIS results. APR 242, ASI 157, +20 kg P @ +0.22% and +29 B/fat @ +0.22%.
- You can trace his maternal line back ten generations exceeding their predicted ABV's. Fantastic cow family.
- 2014/15 lactation to date; in a low input system feeding 1.1tonne
In 195 days 5725 lts, 198 kg Pro @ 3.5%, 252 kg B/Fat @ 4.4% PI 117
- Still producing 25.5 litres at her last herd test and incalf 1st go as usual.

His sire line features four top proven performers under our Australian dairying conditions. We believe using Lippman as Jamar's sire, to be a perfect choice and expect him to breed medium sized, high production, efficient and long lasting cows ideal for Australian dairyfarmers.

Dam of Jamar

AXBRed Mile (ARBLex x Peterslund x ARBPatrick)

NASIS: 05UUK02 Bull Id: AXBREDMILE
Sire: ARBLEX Dam: WAIKATO FARM CLAREBELLE 3662 Ex90

Red Mile is bred from an Ex 90 cow who was the No.1 ABV Aussie Red cow in the April 2014 ADHIS results, and offers a new maternal line

- Red Mile's Progeny Test starting ABV is BPI 170 /29% rel, HWI 126 /23% rel & TWI 147 /25% rel
- His dams April 2015 ABV BPI 267, ASI 191, + 21 kg P @ +0.31% and +36 B/fat @ +0.42%
- She has done 10268 lts 378 kg pro @ 3.7% in 305 days.
- 2014/15 lactation to date;
In 201 days, 7181 lts, 256 kg Pro @ 3.9%, 285 kg B/Fat @ 4.8%, ICC 74

Components, Production, Type and Longevity are features of this Elite young sire's pedigree

Dam of Red Mile

AXBMt Schank (VR Cigar x ARBLippman)

NASIS: 05UUK05 Bull Id: AXBMTSCHANK
Sire: VR CIGAR Dam: WAIKATO FARM VERBENA 3585

Mt Schank is bred from the August 2014 No. 4 ABV Aussie Red cow, VG 87

- His dam's April 2015 AVB is still amazing BPI 267, ASI 255, +43 Pro @ +0.44%
- WF Verbena 3585 produced 306 kg pro @ 3.8 on her first lac.
- She then produced 10663 lts, 388 kg pro on her second lactation

Production, Components, Type, Udders and Larger Teats are strengths of this family

Dam of Mt Schank

AXBAOTEAROA (Eik x Syd Frem x Orraryd)

NASIS: 05UUK04 Bull Id: AXBAOTEAROA
Sire: EIK Dam: WAIKATO FARM JOY 3057 VG 86

Aotearoa offers a completely new maternal line bred up by Mike Green, there is no Bosgowan blood in this pedigree. This new maternal line is a credit to Mike's breeding skills, as there are four generations of this family still milking in his herd.

- His Dams massive ABV ASI 203, +31 Pro @ +0.31 and +31 B/fat.
- Her 2014/15 lac to date;
In 191 days, 6763 lts, 235 kg Pro @ 3.9%, 248 kg B/Fat @ 4.6%
- **His half-sister** is the current No.2 Aussie Red cow with:
BPI 318, ASI 292, +42 kg Pro @+0.35% & +49 kg B/Fat @ +0.18%
- Longevity, Fertility, Production, Components and Type in this family are exceptional.

Dam of Aotearoa

Yes his dam is still black & white! Perfect sire for the commercial dairy farmer looking for profit!
Longevity, Components, Fertility, Type and Production

AXBSHAWSHANK (ARBLippman x Irishman x BJurist x Angler King)

NASIS: 05UUK03 Bull Id: AXBSHAWSHANK
Sire: ARBLIPPMAN Dam: WAIKATO FARM PRIMULA 3628 Ex 92

Shawshank is bred from an Ex 92 cow that has a great depth of pedigree. The type of cow that everyone wishes they had a whole herd of!

Shawshank's Progeny Test starting ABV is impressive @ BPI 170, HWI 122, TWI 161 & ASI 137

- His Dam is the No.1 Australian ranked Ayrshire sired cow.
BPI 205, ASI 173, +9 kg Pro @+0.34% & +43 kg B/Fat @ +0.82%
- She has produced to 12297 lts @ 3.8% pro and 4.4% b/fat
- Her Grand Dam produced over 100,000 litres
- Amazing high genetic merit cow family

Temperament, Type, Components, Milking Speed, Health, Fertility and Production

Dam of Shawshank

Cheers
