

AUZRED XB OCTOBER 2015 NEWSLETTER

.....**5 New Montbeliarde sires**.....

.....**AXB Aussie Red Daughters are milking and impress**.....

Dear

Welcome to our October 2016 Newsletter,

As usual it is fun and games on the farm that test our resilience, Karen and Wayne at Eskdale have suffered some flood damage to add to a trying time, given the current milk price. They've lost a pump shed, some laneway, trees and fencing from extensive erosion due to the velocity and volume of water that went down their tranquil little creek!

Down here in Gippsland, we have been wet, but no complaints as we should end with a very handy spring. The silage bunker has just been filled, but now just need the wind to stop blowing so we can put the plastic cover over it!

Auzred Xb 2016 Sire Guide;

With the delays in sire selection in order to obtain the highest genetic merit sires to suit Australia, and at prices that will give you better value, combined with the semen shipment only arriving from France on October 5th, we have made the call to not produce a 2016 Sire Guide, but instead do an extended newsletter.

A glossy sire guide looks great, but is expensive and we would much rather be able to offer you lower prices for spring via our **Blend Packs** than produce something with a very short shelf life.

5 New Montbeliarde sires arrived with the new shipment last week.

HUMMER ISU 155, HAFIZ A2A2 ISU 144, GALAGO ISU 143, HOKAHOU ISU 134
and HARVEY A2A2 ISU 136

HUMMER ISU 155, RRP \$28, Volume \$26, Blend Pack \$23

High profile TRIOMPHE grandson, selling out very quickly.

AXB Aussie Red Daughters are milking and impress

Daughters of AXBCommodus, AXBMaximus, AXBBlackwood, AXBFonterra and AXBCJ are now milking in herds around Australia, all reports to date have been very positive.

- ❖ **AXBCommodus**, very quiet, plenty of capacity, great udders and teats a bit longer.
- ❖ **AXBMaximus**, quiet, a bit smaller, very tidy and milky.
- ❖ **AXBBlackwood**, range from medium to tall statue, again very quiet, seems to have the longest teats
- ❖ **AXBFonterra**, the most even line I've seen from any sire, exceptional udders, medium statue with plenty of capacity, quiet/placid (love a scratch), high production
- ❖ **AXBCJ**, strong with capacity, very quiet, very good udders.

AXBFonterra (V Foske/Olstad/Christiansborg) , RRP \$16, Volume \$10, Blend Pack \$9

BPI	HWI	TWI	ASI	Pro %	B/Fat %

MILK	MS	TEMP	LIKE	TYPE	UDDERS	FERT	SURV
+406	102	101	102	100	100	99	104

AXBCJ (A Linne/ARBMahatma) RRP \$14, Volume \$10, Blend Pack \$9

The first of our Elite Young Sire program, now with daughters milking, great production with an average PI of 109, very good udders, medium sized, placid. He has fantastic Workabilities of 104 for Milking Speed, 103 for Temperament and 104 for Likability. The combination of his sire's strength for great udders and his dam and gsire's high production have worked well with these first very impressive daughters.

CJ Daughter

AXBJAMAR (ARBLippman x Peterslund x Skole x Hall 798) RRP \$12, Volume \$10, Blend Pack \$9

NASIS: 05UUK01 Bull Id: AXBJAMAR
Sire: ARBLIPPMAN Dam: BLACKWOOD PARK 905

Jamar's Progeny test starting ABV is impressive @ BPI 189 /29% rel, HWI 145 /23% rel, TWI 174 /25% rel

- His Dam was the No.1 ABV Aussie Red cow in the August 2013 ADHIS results. APR 242, ASI 157, +20 kg P @ +0.22% and +29 B/fat @ +0.22%.
- You can trace his maternal line back ten generations exceeding their predicted ABV's.
- His sire line features four top proven performers under our Australian dairying conditions. We expect him to breed medium sized, high production, efficient and long lasting cows ideal for Australian dairyfarmers.

Dam of Jamar

AXBRed Mile (ARBLEX x Peterslund x ARBPatrick) RRP \$12, Volume \$10, Blend Pack \$9

NASIS: 05UUK02 Bull Id: AXBREDMILE
Sire: ARBLEX Dam: WAIKATO FARM CLAREBELLE 3662 Ex90

Red Mile is bred from an Ex 90 cow who was the No.1 ABV Aussie Red cow in the April 2014 ADHIS results, and offers a new maternal line

- Red Mile's Progeny Test starting ABV is BPI 170 /29% rel, HWI 126 /23% rel & TWI 147 /25% rel
- His dams April 2015 ABV BPI 267, ASI 191, + 21 kg P @ +0.31% and +36 B/fat @ +0.42%
- She has done 10268 lts 378 kg pro @ 3.7% in 305 days.

Components, Production, Type and Longevity are features of this Elite young sire's pedigree

Dam of Red Mile

Dam of Red Mile

AXBMt Schank (VR Cigar x ARBLippman) RRP \$14, Volume \$10, Blend Pack \$9

NASIS: 05UUK05 Bull Id: AXBMTSCHANK
Sire: VR CIGAR Dam: WAIKATO FARM VERBENA 3585

Mt Schank is bred from the August 2014 No. 4 ABV Aussie Red cow, VG 87

- His dam's April 2015 AVB is still amazing BPI 267, ASI 255, +43 Pro @ +0.44%
 - WF Verbena 3585 produced 306 kg pro @ 3.8 on her first lac.
 - She then produced 10663 lts, 388 kg pro on her second lactation
- Production, Components, Type, Udders and Larger Teats are strengths of this family

Dam of Mt Schank

AXBAOTEAROA (Eik x Syd Frem x Orraryd) Our highest farmer interest sire to date.

NASIS: 05UUK04 Bull Id: AXBAOTEAROA
Sire: EIK Dam: WAIKATO FARM JOY 3057 VG 86

Aotearoa offers a completely new maternal line bred up by Mike Green, there is no Bosgowan blood in this pedigree. This new maternal line is a credit to Mike's breeding skills, as there are four generations of this family still milking in his herd.

- His Dams massive ABV ASI 203, +31 Pro @ +0.31 and +31 B/fat.
- Her 2014/15 lac to date; In 191 days, 6763 lts, 235 kg Pro @ 3.9%, 248 kg B/Fat @ 4.6%
- Longevity, Fertility, Production, Components and Type in this family are exceptional.

Dam of AOTEAROA

AXBSHAWSHANK (ARBLippman x Irishman x BJurist x Angler King)

NASIS: 05UUK03 Bull Id: AXBSHAWSHANK
Sire: ARBLIPPMAN Dam: WAIKATO FARM PRIMULA 3628 Ex 92

Shawshank is bred from an Ex 92 cow who is the No.1 Australian ranked Ayrshire sired cow.

Shawshank's Progeny Test starting ABV is impressive @ BPI 170, HWI 122, TWI 161 & ASI 137

- His Dam has produced to 12297 lts @ 3.8% pro and 4.4% b/fat, 1008 kg MS
 - Her Grand Dam produced over 100,000 litres
 - Amazing high genetic merit cow family
- Temperament, Type, Components, Milking Speed, Health, Fertility and Production

Dam of Shawshank

Wishing you the best for the spring mating season and the remainder of 2016

Regards

Steve & Karen
